PROFILE

Computer Science undergraduate and **aspiring Full Stack Developer** with hands-on experience in developing scalable web applications using **Java** and **Spring Boot 3**. Proficient in building RESTful APIs, implementing backend logic with **Spring Data JPA** and **Hibernate**, and working with **MySQL** for database-driven applications. Experienced in creating responsive user interfaces and integrating front-end with backend services. Strong understanding of object-oriented programming, clean coding practices, and software development lifecycle. Passionate about building efficient, maintainable systems and continuously learning modern technologies such as microservices architecture and cloud-based solutions.

SKILLS

Programming Languages: Java, JavaScript, Python.

Web Technologies: HTML5, CSS3, JavaScript.

Frameworks & Libraries: React.js, Bootstrap 5, Spring Boot 3, OpenCV (Basic).

Databases: MySQL, PostgreSQL.

Developer Tools: Visual Studio Code, IntelliJ IDEA, Eclipse, STS (Spring Tool Suite), PyCharm, Postman, Git.

Core Concepts: Object-Oriented Programming (OOP), RESTful APIs, API Integration, Full Stack Web Development, Basic Machine Learning Concepts.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

Risk Guard Enterprise Solutions (RGES India), Hyderabad, India
(Sep 2025 – Dec 2025)

- Developed and enhanced full-stack web applications using Java, Spring Boot 3, Spring Data JPA, and MySQL.
- Designed and implemented RESTful APIs and integrated backend services with frontend components.
- Performed CRUD operations and managed data persistence using Hibernate and MySQL.
- Applied MVC architecture and followed best practices for clean, maintainable code.
- Collaborated with team members using Git and worked in an Agile development environment.

Full Stack Development Training / Internship

- Gained hands-on experience in Java-based full stack development using Spring Boot.
- Built and tested REST APIs using Spring Boot and validated them using tools like Postman.
- Developed backend modules with Spring Data JPA and Hibernate for database interaction.
- Implemented basic frontend integration with backend services.

PROJECTS

Movie Ticket Booking System

Technologies: Java, Spring Boot 3, Spring Data JPA, Hibernate, MySQL.

- Built a web application for booking and managing movie tickets.
- Developed RESTful APIs for movie listings, seat selection, and ticket booking.
- Worked with MySQL and Hibernate for CRUD operations and data management.
- Implemented backend logic for booking, cancellation, and user handling

AI-Based Silent Communication System for ICU Patients

Technologies: Python, OpenCV, MediaPipe, PyAutoGUI.

- Designed an AI-driven system to enable non-verbal communication for ICU and mute patients.
- Implemented real-time hand gesture recognition to select predefined requests.
- Improved patient accessibility using computer vision–based interaction.

RiskGuard Company Website Enhancement

Technologies: Java, Spring Boot 3, Spring MVC, Spring Data JPA, MySQL.

- Contributed to enhancement and maintenance of the company’s official website.
- Improved UI components and fixed functional issues.
- Assisted with backend integration using REST APIs and optimized data flow.

EDUCATION

Bachelor of Engineering (Computer Science)

Jain College of Engineering.

2022 – 2026

Belagavi, Karnataka,
India

CERTIFICATES

Java Programming	• JavaScript Fundamentals.	• HTML5, CSS3 & Web
Fundamentals.	• MySQL Database	Fundamentals.
• React.js Development.	Fundamentals.	• Generative AI Fundamentals

EXTRA-CURRICULAR ACTIVITIES

- Finalist – Inceptrix Hackathon (Jain University, Bengaluru).
- NCC Guard of Honour Commander (Air Commodore Visit).
- Represented Uttara Kannada District at Divisional Level (NCC).
- Attended NCC Camps: ATC & Pre-RDC.
- State-Level Boxer – Dasara Sports.
